

## Accepted Manuscript

Genetic sharing with coronary artery disease identifies potential novel loci for bone mineral density

Cheng Peng, Jie Shen, Xu Lin, Kuan-Jui Su, Jonathan Greenbaum, Wei Zhu, Hui-Ling Lou, Feng Liu, Chun-Ping Zeng, Wei-Feng Deng, Hong-Wen Deng

PII: S8756-3282(17)30215-6  
DOI: doi: [10.1016/j.bone.2017.06.016](https://doi.org/10.1016/j.bone.2017.06.016)  
Reference: BON 11346

To appear in: *Bone*

Received date: 10 May 2017  
Revised date: 21 June 2017  
Accepted date: 22 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Genetic Sharing with Coronary Artery Disease Identifies Potential Novel Loci for Bone Mineral Density
