Relationships among ultrasonic and mechanical properties of cancellous bone in human calcaneus in vitro

Keith A. Wear, Srinidhi Nagaraja, Maureen L. Dreher, Saghi Sadoughi, Shan Zhu, Tony M. Keaveny

PII: S8756-3282(17)30220-X
DOI: doi: [10.1016/j.bone.2017.06.021](https://doi.org/10.1016/j.bone.2017.06.021)
Reference: BON 11351
To appear in: *Bone*
Received date: 7 April 2017
Revised date: 1 June 2017
Accepted date: 26 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Keith A. Wear, Bone, 6/26/2017

Relationships among ultrasonic and mechanical properties of cancellous bone in human calcaneus *in vitro*.

Keith A. Wear^a, Srinidhi Nagaraja^a, Maureen L. Dreher^a
