

## Accepted Manuscript

Title: Morphine Exposure and Maternal Deprivation during the Early Postnatal Period Alter Neuromotor Development and Nerve Growth Factor Levels

Authors: Carla de Oliveira, Vanessa L. Scarabelot, Rafael Vercelino, Natalia P. Silveira, Lauren N.S. Adachi, Gabriela G. Regner, Lisiane S. Silva, Isabel Cristina de Macedo, Andressa de Souza, Wolnei Caumo, Iraci L.S. Torres

PII: S0736-5748(17)30102-8  
DOI: <http://dx.doi.org/10.1016/j.ijdevneu.2017.09.001>  
Reference: DN 2214

To appear in: *Int. J. Devl Neuroscience*

Received date: 20-3-2017  
Revised date: 2-9-2017  
Accepted date: 3-9-2017

Please cite this article as: de Oliveira, Carla, Scarabelot, Vanessa L., Vercelino, Rafael, Silveira, Natalia P., Adachi, Lauren N.S., Regner, Gabriela G., Silva, Lisiane S., de Macedo, Isabel Cristina, de Souza, Andressa, Caumo, Wolnei, Torres, Iraci L.S., Morphine Exposure and Maternal Deprivation during the Early Postnatal Period Alter Neuromotor Development and Nerve Growth Factor Levels. *International Journal of Developmental Neuroscience* <http://dx.doi.org/10.1016/j.ijdevneu.2017.09.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### Highlights

- Morphine treatment in early life exhibits a delay in neonatal reflexes.
- Morphine and maternal deprivation induces neurobehavioral alterations in rats.
- Morphine and maternal deprivation induces neurochemical alterations in rats.
