Molecular cloning and characterization of the aryl hydrocarbon receptors and aryl hydrocarbon receptor nuclear translocators in the American alligator

Kaori Oka, Satomi Kohno, Yasuhiko Ohta, Louis J. Guillette Jr., Taisen Iguchi, Yoshinao Katsu

PII: S0016-6480(16)30124-1
DOI: <http://dx.doi.org/10.1016/j.ygcen.2016.05.002>
Reference: YGCEN 12390

To appear in: *General and Comparative Endocrinology*

Received Date: 3 December 2015
Revised Date: 27 April 2016
Accepted Date: 6 May 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
