This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Interactions between a Small Chronic Increase in Diel Water Temperature and Exposure to a Common Environmental Contaminant on Development of Arizona Tiger Salamander Larvae

Author names: Daesik Park^{a,b}, Kathleen L. Freel^b, Kevin D. Daniels^b, Catherine R. Propper^{b,*}

Author affiliations: ^aDivision of Science Education, Kangwon National University, Chuncheon, Kangwon 24341, South Korea; ^bDepartment of Biological Sciences, Northern Arizona University, Flagstaff, 86011 USA

Running head:

Interaction between Temperature Increase and Perchlorate on Development

Corresponding author:

Name: Catherine Propper
