Plasmid transfection in bovine cells: Optimization using a realtime monitoring of green fluorescent protein and effect on gene reporter assay

J.S. Osorio, M. Bionaz

PII: S0378-1119(17)30359-1
DOI: doi: [10.1016/j.gene.2017.05.025](https://doi.org/10.1016/j.gene.2017.05.025)
Reference: GENE 41925

To appear in: *Gene*

Received date: 1 December 2016
Revised date: 26 March 2017
Accepted date: 9 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running title: DNA transfection in bovine cells

**Plasmid transfection in bovine cells: optimization using a realtime
monitoring of green fluorescent protein and effect on gene reporter
assay**

J. S. Osorio[†] and M. Bionaz^{†1}
