Molecular characterization of Isoniazid and Rifampicin target genes in multi-drug resistant *Mycobacterium tuberculosis* isolates from southwest of Iran

Zahra Zarei, Amir Emami, Mohsen Moghadami, Golnar Sami Kashkooli, Neda Pirbonyeh

PII: S2452-0144(16)30098-X
DOI: doi: [10.1016/j.genrep.2016.11.003](https://doi.org/10.1016/j.genrep.2016.11.003)
Reference: GENREP 93

To appear in: *Gene Reports*

Received date: 8 August 2016
Accepted date: 17 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:**Molecular characterization of Isoniazid and Rifampicin target genes in Multi-Drug Resistant *Mycobacterium tuberculosis* isolates from southwest of Iran*****Running Title:*****Mutations in INH and RMP target genes in MTB strains**
