## Structure Report

Relaxed and active thin filament structures; a new structural basis for the regulatory mechanism

Danielle M. Paul, John M. Squire, Edward P. Morris

PII: S1047-8477(17)30015-1

DOI: <http://dx.doi.org/10.1016/j.jsb.2017.01.004>

Reference: YJSBI 7022

To appear in: *Journal of Structural Biology*

Received Date: 27 October 2016

Revised Date: 23 January 2017

Accepted Date: 23 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Relaxed and active thin filament structures; a new structural  
basis for the regulatory mechanism**
