

Accepted Manuscript

Title: Transcription of the apicoplast genome

Author: R.E.R. Nisbet J.L. McKenzie

PII: S0166-6851(16)30093-7

DOI: <http://dx.doi.org/doi:10.1016/j.molbiopara.2016.07.004>

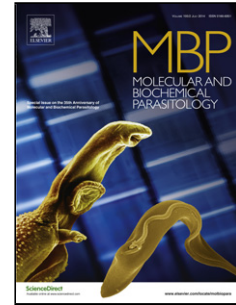

Reference: MOLBIO 11004

To appear in: *Molecular & Biochemical Parasitology*

Received date: 7-7-2016

Revised date: 18-7-2016

Accepted date: 21-7-2016

Please cite this article as: Nisbet RER, McKenzie J.L. Transcription of the apicoplast genome. *Molecular and Biochemical Parasitology* <http://dx.doi.org/10.1016/j.molbiopara.2016.07.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Apicoplast transcription is polycistronic
- Antisense transcription is common
- Significant amount of post-transcriptional processing
- Transcription closely resembles that of the dinoflagellate chloroplast
