

Accepted Manuscript

Evolution in African tropical trees displaying ploidy-habitat association: the genus *Afzelia* (Leguminosae)

Armél S.L. Donkpegan, Jean-Louis Doucet, Jérémy Migliore, Jérôme Duminil, Kasso Dainou, Rosalía Piñeiro, Jan J. Wieringa, Dominique Champluvier, Olivier J. Hardy

PII: S1055-7903(16)30312-8
DOI: <http://dx.doi.org/10.1016/j.ympev.2016.11.004>
Reference: YMPEV 5663

To appear in: *Molecular Phylogenetics and Evolution*

Received Date: 8 December 2015
Revised Date: 26 October 2016
Accepted Date: 4 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Original article for Molecular Phylogenetics and Evolution

Evolution in African tropical trees displaying ploidy-habitat association: the genus *Afzelia* (Leguminosae)
