

## Accepted Manuscript

Stress response in honeybees is associated with changes in task-related physiology and energetic metabolism

Célia Bordier, Séverine Suchail, Maryline Pioz, Jean Marc Devaud, Claude Collet, Mercedes Charreton, Yves Le Conte, Cédric Alaux

PII: S0022-1910(16)30314-6  
DOI: <http://dx.doi.org/10.1016/j.jinsphys.2016.11.013>  
Reference: IP 3580

To appear in: *Journal of Insect Physiology*

Received Date: 23 September 2016  
Revised Date: 10 November 2016  
Accepted Date: 22 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Stress response in honeybees is associated with changes in task-related physiology and energetic metabolism**
