

Accepted Manuscript

Watching television for more than two hours increases the likelihood of reporting poor sleep quality among Brazilian schoolteachers

Sara Carolina Scremin de Souza, Marcela Zambrim Campanini, Selma Maffei de Andrade, Alberto Durán González, Juliana Moura de Melo, Arthur Eumann Mesas

PII: S0031-9384(16)31197-0
DOI: doi: [10.1016/j.physbeh.2017.05.029](https://doi.org/10.1016/j.physbeh.2017.05.029)
Reference: PHB 11814
To appear in: *Physiology & Behavior*
Received date: 16 December 2016
Revised date: 26 May 2017
Accepted date: 26 May 2017

Please cite this article as: Sara Carolina Scremin de Souza, Marcela Zambrim Campanini, Selma Maffei de Andrade, Alberto Durán González, Juliana Moura de Melo, Arthur Eumann Mesas , Watching television for more than two hours increases the likelihood of reporting poor sleep quality among Brazilian schoolteachers. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Phb(2017), doi: [10.1016/j.physbeh.2017.05.029](https://doi.org/10.1016/j.physbeh.2017.05.029)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Watching television for more than two hours increases the likelihood of reporting poor sleep quality among Brazilian schoolteachers
