Energetic stress: The reciprocal relationship between energy availability and the stress response

C.S. Harrell, C.F. Gillespie, G.N. Neigh

PII: S0031-9384(15)30139-6
DOI: doi: [10.1016/j.physbeh.2015.10.009](https://doi.org/10.1016/j.physbeh.2015.10.009)
Reference: PHB 11059

To appear in: *Physiology & Behavior*

Received date: 30 June 2015
Revised date: 17 September 2015
Accepted date: 6 October 2015

Please cite this article as: Harrell CS, Gillespie CF, Neigh GN, Energetic stress: The reciprocal relationship between energy availability and the stress response, *Physiology & Behavior* (2015), doi: [10.1016/j.physbeh.2015.10.009](https://doi.org/10.1016/j.physbeh.2015.10.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Submitted to Physiology & Behavior

Special Issue: Stress Response & Disease

Energetic Stress: The Reciprocal Relationship between Energy Availability and the Stress Response
