Title: Oxytocin's role on the cardiorespiratory activity of endotoxemic rats

Author: Ana Rosa Elorza-Ávila José Javier Reyes-Lagos
Martin Hadamitzky Miguel Ángel Peña-Castillo Juan Carlos
Echeverría María del Rocío Ortiz-Pedroza Laura Lückemann
Manfred Schedlowski Gustavo Pacheco-López

PII: S1569-9048(16)30163-X
DOI: <http://dx.doi.org/doi:10.1016/j.resp.2016.10.008>
Reference: RESPNB 2711

To appear in: *Respiratory Physiology & Neurobiology*

Received date: 14-9-2016
Revised date: 24-10-2016
Accepted date: 24-10-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Oxytocin's role on the cardiorespiratory activity of endotoxemic rats

Running title: EDR analysis of oxytocin and LPS

Short-communication
