This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Plasma Antiphospholipid Antibodies Effects on Activated Partial Thromboplastin Time Assays**

Short title: Antiphospholipid Antibodies on aPTT Assays

Authorship responsibility and contributions

All authors had access to the data and contributed to writing this manuscript. Conceived and designed the experiments: Dengju Li, Ke Yao. Performed the experiments: Ke Yao, Lingyun Zhang, Hang Zhou, Ning Tang. Analyzed the data: Ke Yao, Dengju Li. Contributed reagents/materials/analysis tools: Ning Tang, Dengju Li, Ke Yao.

Conflicts of Interest

No conflict of interest exists in the submission of this manuscript, and manuscript is approved by all authors for publication.
