This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Revised Version 1- Clean file

Word count: 2613 Abstract: 248

Circulating biologically active adrenomedullin (bio-ADM) predicts hemodynamic support requirement and mortality during sepsis.

Pietro Caironi^{a,b}, MD, Roberto Latini^c, MD, Joachim Struck^d, PhD, Oliver Hartmann^d, MS, Andreas Bergmann^d, PhD, Giuseppe Maggio^e, MD, Marco Cavana^f, MD, Gianni Tognoni^c, MD, Antonio Pesenti^{a,b}, MD, Luciano Gattinoni^g, MD, Serge Masson^c, PhD, on behalf of the ALBIOS Study Investigators[§]

[§] A complete list of centers and investigators participating in the ALBIOS sub-study on biomarkers has been published elsewhere [Masson et al., Crit Care 2014]. MC is currently working at Ospedale S. Chiara - Dipartimento di Anestesia e Rianimazione / Azienda Provinciale per i Servizi Sanitari, Provincia Autonoma di Trento, Trento, Italy.

^a Dipartimento di Fisiopatologia Medico-Chirurgica e dei Trapianti, Fondazione IRCCS Ca' Granda - Ospedale Maggiore Policlinico, Università degli Studi di Milano, Milan, Italy; ^b Dipartimento di Anestesia, Rianimazione, ed Emergenza Urgenza, Fondazione IRCCS Ca' Granda – Ospedale Maggiore Policlinico, Milan, Italy; ^c Department of Cardiovascular Research, IRCCS - Istituto di Ricerche Farmacologiche “Mario Negri”, Milan, Italy; ^d Sphingotec GmbH, Hennigsdorf, Germany; ^e IRCCS Fondazione Policlinico San Matteo, Pavia, Italy; ^f Azienda USL U. Parini Valle d'Aosta, Aosta, Italy; ^g Department of Anesthesiology and Intensive Care Medicine, Georg-August-University Göttingen, Göttingen, Germany.

Key words: adrenomedullin – biomarker – sepsis – septic shock – fluid requirement – prognosis

Correspondence: Dr Serge Masson, Istituto “Mario Negri”, via Privata Giuseppe La Masa 19, 20156 Milan, Italy. e-mail: serge.masson@marionegri.it .

Running title: bio-ADM in severe sepsis or septic shock
