This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rebuttal From Dr. Goodson

John D. Goodson, MD

Associate professor of medicine

Harvard Medical School

Physician

Massachusetts General Hospital

Boston, MA

Name and title of first author:

JGoodson1@MGH.Harvard.edu

Correspondence to:

John D. Goodson, MD

Wang 625

Massachusetts General Hospital

15 Fruit Street

Boston, MA 02114

No conflicts to report

If the professional community is to fully embrace lung cancer screening, then we have worked to do. As Dr. Powell correctly points out, the primary care physician workforce has diminished to well below the crisis level.(1) I would add, as a cautionary note, that the cognitive specialties outside of primary care, including pulmonology, face similar
