Endothelial Permeability and Hemostasis in Septic Shock: Results from the ProCESS Trial

Peter Hou, MD, Michael Filbin, MD, Henry Wang, MD, Long Ngo, PhD, David T. Huang, MD, William C. Aird, MD, Donald M. Yealy, MD, Derek C. Angus, MD MPH, John A. Kellum, MD, Nathan I. Shapiro, MD MPH

PII: S0012-3692(17)30024-7

DOI: [10.1016/j.chest.2017.01.010](https://doi.org/10.1016/j.chest.2017.01.010)

Reference: CHEST 913

To appear in: *CHEST*

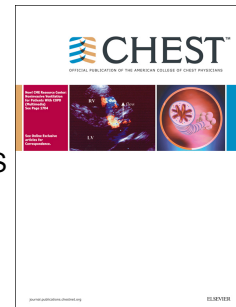

Received Date: 15 August 2016

Revised Date: 4 December 2016

Accepted Date: 2 January 2017

Please cite this article as: Hou P, Filbin M, Wang H, Ngo L, Huang DT, Aird WC, Yealy DM, Angus DC, Kellum JA, Shapiro NI, for the The ProCESS Investigators, Endothelial Permeability and Hemostasis in Septic Shock: Results from the ProCESS Trial, *CHEST* (2017), doi: 10.1016/j.chest.2017.01.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Endothelial Permeability and Hemostasis in Septic Shock:
Results from the ProCESS Trial
