Computerized Triggers of Big Data to Detect Delays in Follow-up of Chest Imaging Results

Daniel R. Murphy, MD MBA, Ashley N.D. Meyer, PhD, Viraj Bhise, MBBS, Elise Russo, MPH, Dean F. Sittig, PhD, Li Wei, Louis Wu, PA, Hardeep Singh, MD MPH

PII: S0012-3692(16)48968-3

DOI: [10.1016/j.chest.2016.05.001](https://doi.org/10.1016/j.chest.2016.05.001)

Reference: CHEST 460

To appear in: *CHEST*

Received Date: 7 December 2015

Revised Date: 14 April 2016

Accepted Date: 2 May 2016

Please cite this article as: Murphy DR, Meyer AND, Bhise V, Russo E, Sittig DF, Wei L, Wu L, Singh H, Computerized Triggers of Big Data to Detect Delays in Follow-up of Chest Imaging Results, *CHEST* (2016), doi: 10.1016/j.chest.2016.05.001.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
