New Developments in Mast Cell Biology: Clinical Implications

Greer Arthur, PhD, Peter Bradding, DM, FRCP

PII: S0012-3692(16)50258-X

DOI: [10.1016/j.chest.2016.06.009](https://doi.org/10.1016/j.chest.2016.06.009)

Reference: CHEST 509

To appear in: *CHEST*

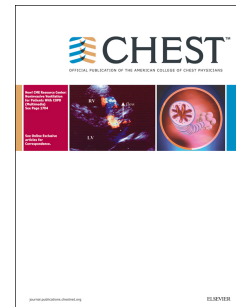

Received Date: 3 March 2016

Revised Date: 26 April 2016

Accepted Date: 3 June 2016

Please cite this article as: Arthur G, Bradding P, New Developments in Mast Cell Biology: Clinical Implications, *CHEST* (2016), doi: 10.1016/j.chest.2016.06.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# **New Developments in Mast Cell Biology: Clinical Implications**

**Greer Arthur, PhD, Peter Bradding DM, FRCP**

Department of Infection, Immunity and Inflammation, Institute for Lung Health, University of Leicester, UK

Address for correspondence: Professor Peter Bradding, Department of Respiratory Medicine, Glenfield Hospital, Groby Rd, Leicester, LE3 9QP UK. E-mail: [pb46@le.ac.uk](mailto:pb46@le.ac.uk)

The authors have no conflicts of interest in relation to this manuscript.
