Function follows Form: When Electrophysiology derives from Anatomy

Mehdi Namdar, MD, PhD, Dipen C. Shah, MD, FHRS

PII: S1547-5271(17)30773-7

DOI: [10.1016/j.hrthm.2017.06.024](https://doi.org/10.1016/j.hrthm.2017.06.024)

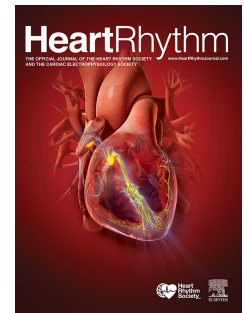

Reference: HRTM 7211

To appear in: *Heart Rhythm*

Received Date: 6 June 2017

Please cite this article as: Namdar M, Shah DC, Function follows Form: When Electrophysiology derives from Anatomy, *Heart Rhythm* (2017), doi: 10.1016/j.hrthm.2017.06.024.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Function follows Form: When Electrophysiology derives from Anatomy
