This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Second Generation Cryoballoon Ablation without the Use of Real-Time Recordings: A Novel Strategy based on a Temperature Guided Approach to Ablation

Temperature guided second generation cryoballoon ablation

Saverio Iacopino MD¹, Giacomo Mugnai MD², Ken Takarada MD², Gaetano Paparella MD³, Erwin Ströker MD², Valentina De Regibus MD², Hugo Enrique Coutino-Moreno MD², Rajin Choudhury MD², Juan Pablo Abugattas de Torres MD², Pedro Brugada MD PhD^{1,2}, Carlo de Asmundis MD PhD^{1,2}, Gian-Battista Chierchia MD PhD^{1,2}
