This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Changes in Electrical Dyssynchrony by Body Surface Mapping Predict Left Ventricular Remodeling in Cardiac Resynchronization Therapy Patients

Short title: Gage et al. Body Surface Mapping and CRT Response

Ryan M. Gage^a, MS, Antonia E. Curtin^b, MS, Kevin V. Burns^a, PhD, Subham Ghosh^c, PhD,
Jeffrey M. Gillberg^c, MS, Alan J. Bank^{a,b}, MD
