This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Genotypic and Phenotypic Predictors of Complete Heart Block and Recovery of Conduction Following Surgical Repair of Congenital Heart Disease

Short title: Predictors of Complete Heart Block and Recovery

Laura Murray[†] MD, Andrew H. Smith[‡], MD, MSCI, MMHC, English C. Flack^{*}, MD, MS,
Kim Crum^{*} RN, Jill Owen^{*} RN, Prince J. Kannankeril^{*}, MD, MSCI, FHRS

From the Department of Pediatrics, ^{*}Thomas P. Graham Jr. Division of Cardiology, and [‡]Division of Critical Care Medicine, Monroe Carell Jr. Children's Hospital at Vanderbilt, and [†]Vanderbilt University Medical Center, Nashville, TN
