This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Left Atrial

Appendage and Pulmonary Artery Anatomic Relationship by

Cardiac-Gated Computed Tomography: Implications for Late Pulmonary Artery

Perforation by Left Atrial Appendage Closure Devices

Short title: LAA and Pulmonary Artery Anatomic Relationship

Author names and affiliations: Amir Halkin, MD,^{*,†} Clara Cohen, MD,[†] Raphael Rosso, MD,^{*,†} Ehud Chorin, MD,^{*,†} Michael Schnapper,[†] Simon Biner, MD,^{*,†} Yan Tupilsky, MD,^{*,†} Avinoam Shiran, MD,[§] Haim Shmilovich, MD,^{*,†} Dotan Cohen, MD,^{*,†} Gad Keren, MD,^{*,†} Shmuel Banai, MD,^{*,†} Galit Aviram, MD,^{†,‡}
