This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Incidence, risk factors, and mortality of neonatal and late-onset dilated cardiomyopathy associated with cardiac neonatal lupus.

Nathalie Morel (1)*, Kateri Lévesque (1)*, Alice Maltret (2)*, Gabriel Baron (3), Mohamed Hamidou (4), Pauline Orquevaux (5), Jean-Charles Piette (6), François Barriere (7), Jérôme Le Bidois (2), Laurent Fermont (2), Olivier Fain (8), Arnaud Theulin (9), François Sassolas (10), Quentin Hauet (11), Gaëlle Guettrot-Imbert (1), Sophie Georgin-Lavialle (12), Christophe Deligny (13), Eric Hachulla (14), Luc Mouthon (1), Claire Le Jeunne (1), Philippe Ravaud (3,15), Delphine Le Mercier (16), Bénédicte Romefort (17), Elisabeth Villain (2), Damien Bonnet (2), and Nathalie Costedoat-Chalumeau (1), on behalf of the « Lupus néonatal » group.
