

## Accepted Manuscript

Coronary physiology in patients with severe aortic stenosis: Comparison between fractional flow reserve and instantaneous wave-free ratio

Roberto Scarsini, Gabriele Pesarini, Carlo Zivelonghi, Anna Piccoli, Valeria Ferrero, Mattia Lunardi, Marco Barbierato, Francesco Caprioglio, Corrado Vassanelli, Flavio Ribichini

PII: S0167-5273(17)30634-4  
DOI: doi:[10.1016/j.ijcard.2017.05.117](https://doi.org/10.1016/j.ijcard.2017.05.117)  
Reference: IJCA 25075

To appear in: *International Journal of Cardiology*

Received date: 30 January 2017  
Revised date: 13 April 2017  
Accepted date: 29 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

*Original article*

**Coronary Physiology in Patients With Severe Aortic Stenosis: Comparison Between Fractional Flow Reserve and Instantaneous Wave-Free Ratio.**
