Renal Response to Intravascular Volume Expansion in Euvolemic Heart Failure Patients with Reduced Ejection Fraction: Mechanistic insights and Clinical implications

Petra Nijst, Frederik H. Verbrugge, Pieter Martens, Matthias Dupont, W.H. Wilson Tang, Wilfried Mullens

PII: S0167-5273(17)31183-X
DOI: doi:[10.1016/j.ijcard.2017.05.041](https://doi.org/10.1016/j.ijcard.2017.05.041)
Reference: IJCA 24999

To appear in: *International Journal of Cardiology*

Received date: 22 February 2017
Revised date: 10 April 2017
Accepted date: 9 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Renal Response to Intravascular Volume Expansion
