This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

Comorbidity-adjusted relative survival in newly hospitalized heart failure patients: a population-based study

Ileana Baldi<sup>1</sup>, Danila Azzolina<sup>2</sup>, Paola Berchialla<sup>3</sup>, Dario Gregori<sup>4</sup>, Lorenza Scotti<sup>5</sup>, Giovanni Corrao<sup>6</sup>

<sup>1</sup>Assistant Professor, Unit of Biostatistics, Epidemiology and Public Health, Department of Cardiac, Thoracic and Vascular Sciences, University of Padova, Via Loredan 18, 35131 Padova, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

<sup>2</sup> Research Assistant, Unit of Biostatistics, Epidemiology and Public Health, Department of Cardiac, Thoracic and Vascular Sciences, University of Padova, Via Loredan 18, 35131 Padova, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

<sup>3</sup>Assistant Professor, Department of Clinical and Biological Sciences, University of Torino, Via Santena 5bis, 10126 Torino, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

<sup>4</sup>Associate Professor, Unit of Biostatistics, Epidemiology and Public Health, Department of Cardiac, Thoracic and Vascular Sciences, University of Padova, Via Loredan 18, 35131 Padova, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

<sup>5</sup> Research Assistant, Unit of Biostatistics, Epidemiology and Public Health, Department of Statistics and Quantitative Methods, University of Milano-Bicocca, Milano, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

<sup>6</sup> Full Professor, Head of the Laboratory of Healthcare Research & Pharmacoepidemiology, Department of Statistics and Quantitative Methods, University of Milano-Bicocca, Milano, Italy. This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.
