Neural cell adhesion molecule expression in dilated cardiomyopathy is associated with intramyocardial inflammation and hypertrophy

Karsten Ostermann, Heinz-Peter Schultheiss, Michel Noutsias

PII: S0167-5273(17)30910-5
DOI: doi:[10.1016/j.ijcard.2017.03.072](https://doi.org/10.1016/j.ijcard.2017.03.072)
Reference: IJCA 24754

To appear in: *International Journal of Cardiology*

Received date: 12 February 2017
Revised date: 5 March 2017
Accepted date: 13 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Neural cell adhesion molecule expression in dilated cardiomyopathy is associated
with intramyocardial inflammation and hypertrophy**
