This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# CARDIOVASCULAR SCREENING IN LOW-INCOME SETTINGS

## USING A NOVEL 4-LEAD SMARTPHONE-BASED ELECTROCARDIOGRAPH (D-HEART®)

**Niccolo' Maurizi**, MD, Referral Center for Cardiomyopathies, Careggi University Hospital, Florence, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Alessandro Faragli**, MD, Center for International Cooperation, University of Pavia, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Jacopo Imberti**, MD, Center for International Cooperation, University of Pavia, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Nicolò Briante**, Center for International Cooperation, University of Pavia, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Mattia Targetti**, MD, Referral Center for Cardiomyopathies, Careggi University Hospital, Florence, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Katia Baldini**, Referral Center for Cardiomyopathies, Careggi University Hospital, Florence, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Amadou Sall**, MD, Dept. of Cardiology, Regional Hospital of Ziguinchor, Senegal

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Abibou Cisse**, Regional Hospital of Ziguinchor, Senegal

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Francesca Gigli Berzolari**, M.Sc., Biostatic and Clinical Epidemiology Unit, Dept. of Public Health, Experimental and Forensic Medicine,

University of Pavia, Pavia Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Paola Borrelli**, PhD, Biostatic and Clinical Epidemiology Unit, Dept. of Public Health, Experimental and Forensic Medicine, University of Pavia,

Pavia Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

**Fulvio Avvantaggiato**, MD, Dept. of Radiology, IRCCS San Matteo, Pavia, Italy

This author takes responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation
