Towards the standardization of stem cell therapy studies for ischemic heart diseases: Bridging the gap between animal models and the clinical setting

Fábio Trindade, Adelino Leite-Moreira, João Ferreira-Martins, Rita Ferreira, Inês Falcão-Pires, Rui Vitorino

PII: S0167-5273(16)33776-7
DOI: doi: [10.1016/j.ijcard.2016.11.236](https://doi.org/10.1016/j.ijcard.2016.11.236)
Reference: IJCA 24098

To appear in: *International Journal of Cardiology*

Received date: 15 June 2016
Revised date: 9 November 2016
Accepted date: 10 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Towards the standardization of Stem Cell Therapies
studies for Ischemic Heart Diseases: bridging the gap
between animal models and the clinical setting
