Safety of optical coherence tomography in pediatric heart transplant patients

Sarah M. Ulrich, Anja Lehner, Julia Birnbaum, Stefanie Heckel, Nikolaus A. Haas, Lale Hakami, Rene Schramm, Robert Dalla Pozza, Marcus Fischer, Rainer Kozlik-Feldmann

PII: S0167-5273(16)33568-9
DOI: doi: [10.1016/j.ijcard.2016.11.109](https://doi.org/10.1016/j.ijcard.2016.11.109)
Reference: IJCA 23971

To appear in: *International Journal of Cardiology*

Received date: 13 August 2016
Accepted date: 6 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Safety of optical coherence tomography in pediatric heart transplant patients
