

Multimodality Imaging of Diseases of the Thoracic Aorta in Adults: From the American Society of Echocardiography and the European Association of Cardiovascular Imaging

Endorsed by the Society of Cardiovascular Computed Tomography and Society for Cardiovascular Magnetic Resonance

Steven A. Goldstein, MD, Co-Chair, Arturo Evangelista, MD, FESC, Co-Chair, Suhny Abbara, MD, Andrew Arai, MD, Federico M. Asch, MD, FASE, Luigi P. Badano, MD, PhD, FESC, Michael A. Bolen, MD, Heidi M. Connolly, MD, Hug Cuéllar-Calàbria, MD, Martin Czerny, MD, Richard B. Devereux, MD, Raimund A. Erbel, MD, FASE, FESC, Rossella Fattori, MD, Eric M. Isselbacher, MD, Joseph M. Lindsay, MD, Marti McCulloch, MBA, RDCS, FASE, Hector I. Michelena, MD, FASE, Christoph A. Nienaber, MD, FESC, Jae K. Oh, MD, FASE, Mauro Pepi, MD, FESC, Allen J. Taylor, MD, Jonathan W. Weinsaft, MD, Jose Luis Zamorano, MD, FESC, FASE, Contributing Editors: Harry Dietz, MD, Kim Eagle, MD, John Elefteriades, MD, Guillaume Jondeau, MD, PhD, FESC, Hervé Rousseau, MD, PhD, and Marc Schepens, MD, *Washington, District of Columbia; Barcelona and Madrid, Spain; Dallas and Houston, Texas; Bethesda and Baltimore, Maryland; Padua, Pesaro, and Milan, Italy; Cleveland, Ohio; Rochester, Minnesota; Zurich, Switzerland; New York, New York; Essen and Rostock, Germany; Boston, Massachusetts; Ann Arbor, Michigan; New Haven, Connecticut; Paris and Toulouse, France; and Brugge, Belgium*

(J Am Soc Echocardiogr 2015;28:119-82.)

TABLE OF CONTENTS

Preamble	121	B. How to Measure the Aorta	124
I. Anatomy and Physiology of the Aorta	121	1. Interface, Definitions, and Timing of Aortic Measurements	124
A. The Normal Aorta and Reference Values	121		
1. Normal Aortic Dimensions	122		

From the Medstar Heart Institute at the Washington Hospital Center, Washington, District of Columbia (S.A.G., F.M.A., J.M.L., A.J.T.); Vall d'Hebron University Hospital, Barcelona, Spain (A.E., H.C.-C.); the University of Texas Southwestern Medical Center, Dallas, Texas (S.A.); the National Institutes of Health, Bethesda, Maryland (A.A.); the University of Padua, Padua, Italy (L.P.B.); Cleveland Clinic, Cleveland, Ohio (M.A.B.); Mayo Clinic, Rochester, Minnesota (H.M.C., H.I.M., J.K.O.); the University Hospital Zurich, Zurich, Switzerland (M.C.); Weill Cornell Medical College, New York, New York (R.B.D., J.W.W.); West-German Heart Center, University Duisburg-Essen, Essen, Germany (R.A.E.); San Salvatore Hospital, Pesaro, Italy (R.F.); Massachusetts General Hospital, Boston, Massachusetts (E.M.I.); the Methodist DeBakey Heart & Vascular Center, Houston, Texas; the University of Rostock, Rostock, Germany (C.A.N.); Centro Cardiologico Monzino, IRCCS, Milan, Italy (M.P.); University Hospital Ramón y Cajal, Madrid, Spain (J.L.Z.); Johns Hopkins University School of Medicine, Baltimore, Maryland (H.D.); the University of Michigan, Ann Arbor, Michigan (K.E.); Yale University School of Medicine, New Haven, Connecticut (J.E.); Hopital Bichat, Paris, France (G.J.); Hopital de Rangueil, Toulouse, France (H.R.); and AZ St Jan Brugge, Brugge, Belgium (M.S.).

The following authors reported no actual or potential conflicts of interest in relation to this document: Federico M. Asch, MD, FASE, Michael A. Bolen, MD, Heidi M. Connolly, MD, Hug Cuéllar-Calàbria, MD, Martin Czerny, MD, Richard B. Devereux, MD, Harry Dietz, MD, Raimund A. Erbel, MD, FASE, FESC, Arturo Evangelista, MD, FESC, Rossella Fattori, MD, Steven A. Goldstein, MD, Guillaume Jondeau, MD, PhD, FESC, Eric M. Isselbacher, MD, Joseph M. Lindsay, MD, Marti McCulloch, MBA, RDCS, FASE, Hector I. Michelena, MD, FASE, Christoph Nienaber, MD, FESC, Mauro Pepi, MD, FESC, Marc Schepens, MD, Allen J.

Taylor, MD, and Jose Luis Zamorano, MD, FESC, FASE. The following authors reported relationships with one or more commercial interests: Suhny Abbara, MD, serves as a consultant for Perceptive Informatics. Andrew Arai, MD, receives research support from Siemens. Luigi P. Badano, MD, PhD, FESC, has received software and equipment from GE Healthcare, Siemens, and TomTec for research and testing purposes and is on the speakers' bureau of GE Healthcare. Kim Eagle, MD, received a research grant from GORE. John Elefteriades, MD, has a book published by CardioText and is a principal investigator on a grant and clinical trial from Medtronic. Jae K. Oh, MD, received a research grant from Toshiba and core laboratory support from Medtronic. Hervé Rousseau, MD, serves as a consultant for GORE, Medtronic, and Bolton. Jonathan W. Weinsaft, MD, received a research grant from Lantheus Medical Imaging.

Attention ASE Members:

The ASE has gone green! Visit www.aseuniversity.org to earn free continuing medical education credit through an online activity related to this article. Certificates are available for immediate access upon successful completion of the activity. Nonmembers will need to join the ASE to access this great member benefit!
