Title: Value of Assessment of Exercise Hemodynamics in Patients with Atrial Fibrillation

Author: Marek Sramko, Dan Wichterle, Vojtech Melenovsky, Josef Kautzner

PII: S1071-9164(17)30153-7

DOI: <http://dx.doi.org/doi: 10.1016/j.cardfail.2017.05.014>

Reference: YJCAF 3968

To appear in: *Journal of Cardiac Failure*

Please cite this article as: Marek Sramko, Dan Wichterle, Vojtech Melenovsky, Josef Kautzner, Value of Assessment of Exercise Hemodynamics in Patients with Atrial Fibrillation, *Journal of Cardiac Failure* (2017), <http://dx.doi.org/doi: 10.1016/j.cardfail.2017.05.014>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Value of Assessment of Exercise Hemodynamics in Patients with Atrial Fibrillation

Comment to the article:

Meluzin J, Starek Z, Kulik T, et al. Prevalence and Predictors of Early Heart Failure with Preserved Ejection Fraction in Patients with Paroxysmal Atrial Fibrillation. J Card Fail 2017; [E-pub ahead of print] DOI: 10.1016/j.cardfail.2017.04.002
