This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Troubleshooter in electrical storm: Mechanical unloading leads to heart rhythm stabilization

Johannes Mierke^a M.D., Tobias Löhn^a M.D., Christian Pfluecke^a M.D.,
Karim Ibrahim^a M.D.

^a Technische Universität Dresden, Heart Center Dresden University Hospital

Key words: electrical storm, ventricular fibrillation, percutaneous left ventricular assist device, cardiac arrest

Number of figures: 2

Word count: 686
(Case Report, Discussion)

Correspondence: Johannes Mierke

Address: Technische Universität Dresden,
Heart Center Dresden; University Hospital
Fetscherstraße 76
01307 Dresden
Germany
