This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Bleeding and Thrombosis Associated with Ventricular Assist Device Therapy:

A State of the Art Review

Short Title: Bleeding and Thrombosis in LVADs

Palak Shah, MD, MS^{1,2}; Udaya S Tantry, PhD¹; Kevin P Bliden, MBA¹; Paul A Gurbel, MD¹

¹Inova Center for Thrombosis Research and Drug Development, Inova Heart and Vascular Institute

²Heart Failure and Transplantation, Inova Heart and Vascular Institute

Keywords: left ventricular assisted device, thrombosis, gastrointestinal bleeding, hemolysis, antithrombotic therapy.

Abbreviations

AVM – arteriovenous malformation

BTT – bridge-to-transplant

DT – destination therapy

GIB – gastrointestinal bleeding

HF – heart failure

HMvWF – high molecular weight von Willebrand's Factor

INR – international normalized ratio

INTERMACS – Interagency Registry for Mechanically Assisted Circulatory Support

LDH – lactate dehydrogenase

LVAD – left ventricular assist device
