This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Donor-recipient size matching and mortality in heart transplantation – influence of body mass index and sex.**

**Authors:** Henrik Bergenfeldt, MD<sup>1</sup>; Josef Stehlik, MD, MPH<sup>2</sup>, Peter Höglund, MD, PhD<sup>3</sup>, Bodil Andersson, MD, PhD<sup>4</sup>; Johan Nilsson, MD, PhD<sup>1</sup>

**Institutions and Affiliations:** <sup>1</sup>Department of Cardiothoracic Surgery, Lund University and Skåne University Hospital, <sup>2</sup>Division of Cardiovascular Medicine, University of Utah School of Medicine Salt Lake City, Utah and The ISHLT International Registry for Heart and Lung Transplantation, Dallas, Texas; <sup>3</sup>Competence Center for Clinical Research, Lund University and Skåne University Hospital; <sup>4</sup>Department of Surgery, Lund University and Skåne University Hospital.

**Corresponding Author:** Associate Professor Johan Nilsson, Lund University and Skåne University Hospital, Department of Clinical Sciences Lund, Cardiothoracic Surgery, SE-221 85 LUND, Sweden; Fax: Int (+46) 46 158635; e-mail: johan.nilsson@med.lu.se

**Funding sources:** This study was made possible by grants from the Swedish National Infrastructure for Computing, the Swedish Heart-Lung Foundation, the Swedish Society of Medicine, Government Grants for Clinical Research, Region Skåne Research Funds, Donation Funds of Lund University Hospital, and the Crafoord Foundation. There is no relationship with industry.
