This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Association between Bystander Cardiopulmonary Resuscitation and Redeemed Prescriptions  
for Antidepressants and Anxiolytics in Out-of-Hospital Cardiac Arrest Survivors**

**Running title:** Bundgaard et al.; Antidepressants and anxiolytics after OHCA
