Alsop, on behalf of the SAGES Study Group, State of the Art and Promise of Structural Neuroimaging in Postoperative Delirium and Postoperative Cognitive Decline, *The American Journal of Geriatric Psychiatry* (2017), <http://dx.doi.org/doi: 10.1016/j.jagp.2017.07.009>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**State of the art and promise of structural neuroimaging in postoperative delirium
and postoperative cognitive decline**

A commentary on “MRI markers of neurodegenerative and neurovascular changes in relation to postoperative delirium and postoperative cognitive decline” by Kant and coll.

M. Cavallari^{a,*}, C.R.G. Guttmann^a, S.K. Inouye^{b,c,#}, D.C. Alsop^{d,#}; on behalf of the
SAGES Study Group.
