Conflicts of Interest and Source of Funding: This study was funded by NIMH P20MH090318, R01MH095753, PI: David C. Mohr. No disclosures to report.

Acknowledgements

This project was supported by the National Institutes of Health grants P20 MH090318 and R01MH095753. Recruitment for the study included use of ResearchMatch, a national health volunteer registry that was created by several academic institutions and supported by the U.S. National Institutes of Health as part of the Clinical Translational Science Award (CTSA) program, and the Aging Research Registry, a database of approximately older people in the Chicagoland area who have expressed a willingness to participate in research studies on the provision of care to aging patients and that was created and is supported by Northwestern University's Buehler Center on Aging, Health, and Society. REDCap electronic data tools hosted at Northwestern University were used in this trial. REDCap is supported at the Feinberg School of Medicine by the Northwestern University Clinical and Translational Science (NUCATS) Institute. Research reported in this publication was supported, in part, by the National Institutes of Health National Center for Advancing Translational Sciences, Grant Number UL1TR001422. The content is solely the
