16 **Word count:** 3,342 before revision, 4,061 after revision

17
18 **Conflicts of interests:** Over the last three years, Henry Brodaty has been on advisory boards of or a
19 consultant to Eli Lilly, Merck and Nutricia. His department has received payment to participate in
20 drug trials for Alzheimer's disease by Merck, Sanofi, Servier, Eli Lilly and Tau Therapeutics. He has
21 been recipient of grants for research by the National Health and Medical Research Council and
22 Australian Department of Health and Ageing. The other authors declare no competing interests.

23 **Funding/Support:** The work was supported by an Australian National Health and Medical Research
24 Council Program Grant (ID1093083). HB, LA and MH are supported by the Australian National
25 Health and Medical Research Council-funded Dementia Collaborative Research Centre Assessment
26 and Better Care at University of New South Wales. **Role of the Funder/Sponsor:** The funding
27 sources had no role in the design and conduct of the study; collection, management, analysis, or
28 interpretation of the data; preparation, review, or approval of the manuscript; and decision to submit
29 the manuscript for publication.
