Main text word count excluding title page, abstract, key words, tables, COI statement, acknowledgements and references, including in-text citations: 3274 excluding in-text references, 3500 including in-text references

## **Funding**

This study was funded by the German Research Foundation (Deutsche Forschungsgemeinschaft) (GR 3608/1-1). The KORA-Age project was financed by the German Federal Ministry of Education and Research (BMBF FKZ 01ET0713 and FKZ 01ET1003A, C) as part of the 'Health in old age' program. The financial sponsors played no role in the design, execution, analysis and interpretation of data, or writing of the study.
