UVA and UVB induce different sets of long non-coding RNAs

Kazuyuki Yo, Thomas M. R nger

PII: S0022-202X(16)32641-0

DOI: [10.1016/j.jid.2016.10.041](https://doi.org/10.1016/j.jid.2016.10.041)

Reference: JID 614

To appear in: *The Journal of Investigative Dermatology*

Received Date: 17 May 2016

Revised Date: 21 October 2016

Accepted Date: 24 October 2016

Please cite this article as: Yo K, R nger TM, UVA and UVB induce different sets of long non-coding RNAs, *The Journal of Investigative Dermatology* (2016), doi: 10.1016/j.jid.2016.10.041.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Letter to the Editor

UVA and UVB induce different sets of long non-coding RNAs
