This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

INTRACRANIAL COMPLICATIONS AFTER MINOR HEAD INJURY (MHI) IN PATIENTS TAKING VITAMIN K ANTAGONISTS (VKA) OR DIRECT ORAL ANTICOAGULANTS (DOACs)

Running Head: Intracranial complications after minor head injury in anticoagulated patients

Authors:

Alessandro Riccardi MD, Beatrice Spinola MD, Pierangela Minuto MD, Maria Ghinatti MD, Grazia Guidido MD, Michele Malerba MD, Roberto Lerza MD
