## January–June 2017

January, pp. 1-154; e1-e10; S1-S52; February, pp. 155-274; e11-e18; March, pp. 275-382; e19-e24; April, pp. 383-530; e25-e26; May, pp. 531-674; e27-e60; June, pp. 675-802; e61-e64.

### A

#### Abdomen, diagnostic imaging

- [Aortocaval fistula] (Varhanik et al.). 2017;69:149 (Images in Emergency Medicine), 152 (Images in Emergency Medicine)
- [Chilaiditi's syndrome] (Abboud and Frasure). 2017;69:10 (Images in Emergency Medicine), 17 (Images in Emergency Medicine)
- Considerations in imaging among emergency department patients with inflammatory bowel disease (Griffey et al.). 2017;69:587–599 (Review Article)
- [Hepatic cerebrospinal fluid pseudocyst] (Kiechle et al.). 2017;69:792 (Images in Emergency Medicine), 799 (Images in Emergency Medicine)
- [Jejunioileal fistula and jejunum perforation from swallowed magnets] (Ilia and Briassoulis). 2017;69:515 (Images in Emergency Medicine), 529 (Images in Emergency Medicine)
- [Necrotizing soft tissue infection] (Myrtinger and Kraai). 2017;69:513 (Images in Emergency Medicine), 526 (Images in Emergency Medicine)
- [Phlegmasia cerulea dolens associated with May-Thurner syndrome] (Kiritsty et al.). 2017;69:375 (Images in Emergency Medicine), 381 (Images in Emergency Medicine)
- Should kidney stone patients with diagnosis by ultrasonography be prescribed tamsulosin? (Hal and Sorenson); Reply (Wang and Fahimi). 2017;69:524–525 (Correspondence)
- [Spontaneous perforation of pyometra] (Su et al.). 2017;69:793 (Images in Emergency Medicine), 800 (Images in Emergency Medicine)

#### Abdominal injuries

- Medical management at the health care facility (Gale et al.). 2017;69:S36–S45

#### Abdominal pain, diagnosis

- Initiating diagnostic studies on patients with abdominal pain in the waiting room decreases time spent in an emergency department bed: a randomized controlled trial (Begaz et al.). 2017;69:298–307

#### Abscess. *See also* Brain abscess

- [Lingual abscess] (Pulia et al.). 2017;69:514 (Images in Emergency Medicine), 528 (Images in Emergency Medicine)

#### ACA. *See* Patient Protection and Affordable Care Act (ACA)

#### Acute kidney injury

- Risk of acute kidney injury after intravenous contrast media administration (Hinson et al.). 2017;69:577–586

#### Administrative tasks. *See also* Task performance and analysis

- Enforcement of the Emergency Medical Treatment and Labor Act, 2005 to 2014 (Terp et al.). 2017;69:155–162
- Epic finger (Ross). 2017;69:139–140 (Change of Shift)
- Short-term care with long-term costs: the unintended consequences of EMTALA (Rhodes and Smith). 2017;69:163–165 (Editorial)

#### Adrenergic $\alpha$ -2 receptor agonists

- Do  $\alpha_2$ -adrenergic agonists decrease the symptoms associated with opioid withdrawal? (Gottlieb and Gore). 2017;69:740–742 (Systematic Review Snapshot)

#### Advance directives

- Beyond code status: palliative care begins in the emergency department (Wang). 2017;69:434–436 (Editorial)

#### Affordable Care Act. *See* Patient Protection and Affordable Care Act (ACA)

#### Afghanistan

- Potential (April). 2017;69:366–367 (Change of Shift)

#### Africa

- Getting it right the first time: defining regionally relevant training curricula and provider core competencies for point-of-care ultrasound education on the African continent (Salmon et al.). 2017;69:218–226 (Concepts)
- Improving publication quality and quantity for acute care authors from low- and middle-income settings (Buijns et al.). 2017;69:462–468

#### Aged

- The association of community-based palliative care with reduced emergency department visits in the last year of life varies by patient factors (Spilsbury et al.). 2017;69:416–425

- Bending the curve of health trajectories for older adults discharged from the emergency department (LaMantia and Platts-Mills). 2017;69:434–436 (Editorial)
- Beyond code status: palliative care begins in the emergency department (Wang). 2017;69:434–436 (Editorial)
- Emergency department visits without hospitalization are associated with functional decline in older persons (Nagurney et al.). 2017;69:426–433
- Medical management at the explosive incident scene (Shea et al.). 2017;69:S20–S28
- Relationship between continuity of ambulatory care and risk of emergency department episodes among older adults (Nyweide and Bynum). 2017;69:407–415

#### Agitation

- Clinical policy: critical issues in the diagnosis and management of the adult psychiatric patient in the emergency department (Nazarian et al.). 2017;69:480–498 (Clinical Policy)

#### Agitation, drug therapy

- Droperidol or olanzapine, intramuscularly or intravenously, monotherapy or combination therapy for sedating acute behavioral disturbance (Isbister). 2017;69:337–339 (Editorial)
- Intranasal dexmedetomidine sedation as adjuvant therapy in acute asthma exacerbation with marked anxiety and agitation (Cozzi et al.). 2017;69:125–127 (Case Report)
- Midazolam-droperidol, droperidol, or olanzapine for acute agitation: a randomized clinical trial (Taylor et al.). 2017;69:318–326
- A prospective observational study of patients receiving intravenous and intramuscular olanzapine in the emergency department (Cole et al.). 2017;69:327–336
- Sedating the agitated patient: a moving target? (Wang et al.); Reply (Taylor et al.). 2017;69:521–523 (Correspondence)

#### Air ambulance

- Bluey (Renouf). 2017;69:499 (Change of Shift)

#### Airplane emergency kits

- In-flight emergency (Stone). 2017;69:520–521 (Correspondence)

#### Airway management. *See also* Intubation, intratracheal

#### Airway management, neonatal

- The neonatal airway and the Goldilocks phenomenon (Jhun et al.). 2017;69:167–170 (EM:RAP Commentary)

#### Ambulatory care. *See also* Community health services

- Relationship between continuity of ambulatory care and risk of emergency department episodes among older adults (Nyweide and Bynum). 2017;69:407–415

#### American College of Emergency Physicians

- Why diversity and inclusion are critical to the American College of Emergency Physicians' future success (Parker et al.). 2017;69:714–716 (Editorial)

#### Amiodarone

- In patients with cardiac arrest, does amiodarone or lidocaine increase meaningful survival? 2017;69:572–574 (Systematic Review Snapshot)

#### Amitriptyline, poisoning

- [Unresponsive male] (Kim et al.). 2017;69:552–553 (ECG of the Month), 560–561 (ECG of the Month)

#### Amputation, traumatic

- Medical management at the health care facility (Gale et al.). 2017;69:S36–S45

#### Analgesia

- A special contribution from the Centers for Medicare and Medicaid Services: valuing patient experience while addressing the prescription opioid epidemic (Tefera et al.). 2017;69:181–183 (Editorial)

#### Analgesics, opioid, disorders & misuse

- Do  $\alpha_2$ -adrenergic agonists decrease the symptoms associated with opioid withdrawal? (Gottlieb and Gore). 2017;69:740–742 (Systematic Review Snapshot)

- Factors associated with participation in an emergency department–based take-home naloxone program for at-risk opioid users (Kestler et al.). 2017;69:340–346 (Brief Research Report)
- Fentanyl and a novel synthetic opioid U-47700 masquerading as street “Norco” in central California: a case report (Armenian et al.). 2017;69:87–90 (Case Report)
- Intravenous buprenorphine: a substitute for naloxone in methadone-overdosed patients? (Zamani and Hassanian-Moghaddam). 2017;69:737–739 (Case Report)
- Loperamide will stop you up but it can also bring you down [Journal Club questions for Vakkalanka et al., 2017;69:73–78] (Bellew et al.); [Journal Club answers] (Bellew and Barrett). 2017;69:142–143, 786–791
- Novel synthetic opioids: an opioid epidemic within an opioid epidemic (Lucyk and Nelson). 2017;69:91–93 (Editorial)
- A special contribution from the Centers for Medicare and Medicaid Services: valuing patient experience while addressing the prescription opioid epidemic (Tefera et al.). 2017;69:181–183 (Editorial)
- Anaphylaxis**  
EpiPen controversy reveals complexity behind drug price tags (Greene). 2017;69:16A–19A [January issue] (News & Perspective)
- Anesthesia**  
Take my breath away (Lyon). 2017;69:253–254 (Change of Shift)
- Anesthetics, intravenous**  
Comparison of etomidate and ketamine for induction during rapid sequence intubation of adult trauma patients (Upchurch et al.). 2017;69:24–33
- Angioedema**  
Emergency department airway management of severe angioedema: a video review of 45 intubations (Driver and McGill). 2017;69:635–639 (Brief Research Report)
- Anhidrosis**  
[Neuroblastoma] (Lipsett). 2017;69:688 (Images in Emergency Medicine), 736 (Images in Emergency Medicine)
- Annals of Emergency Medicine**  
Accelerating knowledge translation: reflections from the online ALiEM-Annals Global Emergency Medicine Journal Club experience (Lin et al.). 2017;69:469–474 (Editorial)  
The effect of peer review on the quality of data graphs in *Annals of Emergency Medicine* (Schriger et al.). 2017;69:434–436 (Editorial)
- Anti-arrhythmia agents**  
Outcomes for emergency department patients with recent-onset atrial fibrillation and flutter treated in Canadian hospitals (Stiell et al.). 2017;69:562–571  
In patients with cardiac arrest, does amiodarone or lidocaine increase meaningful survival? 2017;69:572–574 (Systematic Review Snapshot)
- Antibiotic therapy**  
Antibiotics first versus surgery for appendicitis: a US pilot randomized controlled trial allowing outpatient antibiotic management: a little step toward a patient-centered approach and rethinking the management of acute appendicitis (Podda et al.); Reply (Talan). 2017;69:794–796 (Correspondence)  
Are antibiotics a feasible alternative to surgery for acute appendicitis? (Gottlieb and Hunter). 2017;69:362–363 (Systematic Review Snapshot)  
Are antibiotics necessary for dental pain without overt infection? (Gottlieb and Khishfe). 2017;69:128–130  
Vital signs: epidemiology of sepsis: prevalence of health care factors and opportunities for prevention (Novosad et al.); Commentary (Garg et al.). 2017;69:131–136 (CDC Update)
- Anticoagulant reversal**  
Comparison of fresh frozen plasma with prothrombin complex concentrate for warfarin reversal (Harrison and Gottlieb). 2017;69:777–779 (Systematic Review Snapshot)  
Idarucizumab for the reversal of dabigatran (Gottlieb and Khishfe). 2017;69:554 (Best Available Evidence)  
Management of major bleeding events in patients treated with dabigatran for nonvalvular atrial fibrillation: a retrospective, multicenter review (Milling et al.). 2017;69:531–540
- Anticoagulant therapy**  
CHA<sub>2</sub>DS<sub>2</sub>-VASc scores and major bleeding in patients with nonvalvular atrial fibrillation who are receiving rivaroxaban (Peacock et al.). 2017;69:541–550  
Management of cancer-associated venous thromboembolism in the emergency department (Nene and Coyne). 2017;69:768–776 (Review Article)
- Anticonvulsant therapy**  
Making sense of a negative clinical trial result: a Bayesian analysis of a clinical trial of lorazepam and diazepam for pediatric status epilepticus (Chamberlain and Chamberlain). 2017;69:117–124  
Should antiepileptic drugs be initiated in the emergency department after a first-time seizure? (Gottlieb and Clayton). 2017;69:752–754 (Systematic Review Snapshot)
- Antidepressive agents, tricyclic, poisoning**  
[Unresponsive male] (Kim et al.). 2017;69:552–553 (ECG of the Month), 560–561 (ECG of the Month)
- Antineoplastic protocols, adverse effects.** *See also* Cancer patients  
Diabetic ketoacidosis and acute pancreatitis: serious adverse effects of everolimus (Acharya et al.). 2017;69:666–667 (Correspondence)
- Antiviral agents**  
Do antiviral medications improve symptoms in the treatment of Bell’s palsy? (Hernandez and Sherbino). 2017;69:364–365 (Systematic Review Snapshot)
- Aortic aneurysm, abdominal, complications**  
[Aortocaval fistula] (Varhanik et al.). 2017;69:149 (Images in Emergency Medicine), 152 (Images in Emergency Medicine)
- Aortocaval fistula**  
[Aortocaval fistula] (Varhanik et al.). 2017;69:149 (Images in Emergency Medicine), 152 (Images in Emergency Medicine)
- Apnea**  
Apnea after low-dose ketamine sedation during attempted delayed sequence intubation (Driver and Reardon). 2017;69:34–35 (Case Report)  
Ketamine causing apnea? (Shiber); Reply (Driver and Reardon). 2017;69:667–669 (Correspondence)
- Appendicitis, therapy**  
Antibiotics first versus surgery for appendicitis: a US pilot randomized controlled trial allowing outpatient antibiotic management: a little step toward a patient-centered approach and rethinking the management of acute appendicitis (Podda et al.); Reply (Talan). 2017;69:794–796 (Correspondence)  
Are antibiotics a feasible alternative to surgery for acute appendicitis? (Gottlieb and Hunter). 2017;69:362–363 (Systematic Review Snapshot)
- Arachnoid cysts**  
[Ruptured arachnoid cyst] (Yanger and Vezzetti). 2017;69:659 (Images in Emergency Medicine), 671 (Images in Emergency Medicine)
- Asthma, therapy**  
Clarification: editorial oversight of results reported in *Annals* (Mayer). 2017;69:525–526 (Correspondence)  
Intranasal dexmedetomidine sedation as adjuvant therapy in acute asthma exacerbation with marked anxiety and agitation (Cozzi et al.). 2017;69:125–127 (Case Report)  
One and done: steroids for adult asthma [Journal Club answers for Rehrer et al., 2016;68:608–613] (Davis and Barrett). 2017;69:503–512
- Atrial fibrillation, therapy**  
CHA<sub>2</sub>DS<sub>2</sub>-VASc scores and major bleeding in patients with nonvalvular atrial fibrillation who are receiving rivaroxaban (Peacock et al.). 2017;69:541–550  
Management of major bleeding events in patients treated with dabigatran for nonvalvular atrial fibrillation: a retrospective, multicenter review (Milling et al.). 2017;69:531–540  
Outcomes for emergency department patients with recent-onset atrial fibrillation and flutter treated in Canadian hospitals (Stiell et al.). 2017;69:562–571
- Attention**  
Are you paying attention? Related guidance on how concepts of attention may inform effective time sharing of tasks in emergency medicine (Benda et al.); Reply (Skaugset et al.). 2017;69:669–670 (Correspondence)
- Australia**  
Bluey (Renouf). 2017;69:499 (Change of Shift)  
Trainees hurl allegations of racism at Australasian College of Emergency Medicine: nonwhite foreign-trained physicians rarely pass qualifying examination (Huffman). 2017;69:15A–17A [May issue] (News & Perspective)

## B

### Bag-valve-mask ventilation

- Comparison of ventilation with one-handed mask seal with an intraoral mask versus conventional cuffed face mask in a cadaver model: a randomized crossover trial (Amack et al.). 2017;69:12–17 (Brief Research Report)  
Flush rate oxygen for emergency airway preoxygenation (Driver et al.). 2017;69:1–6  
Karachi hackathon takes on emergency medicine challenges: solutions pitched for resource-poor environments (Berger). 2017;69:17A–20A [March issue] (News & Perspective)
