Title: Does restoration of leg length and femoral offset play a role in functional outcome one year after hip hemiarthroplasty?

Authors: Dror Lakstein, Ehud Atoun, Orit Wissotzky, Zachary Tan

PII: S0020-1383(17)30282-6
DOI: <http://dx.doi.org/doi:10.1016/j.injury.2017.04.054>
Reference: JINJ 7219

To appear in: *Injury, Int. J. Care Injured*

Accepted date: 25-4-2017

Please cite this article as: Lakstein Dror, Atoun Ehud, Wissotzky Orit, Tan Zachary. Does restoration of leg length and femoral offset play a role in functional outcome one year after hip hemiarthroplasty? *Injury* <http://dx.doi.org/10.1016/j.injury.2017.04.054>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Does restoration of leg length and femoral offset play a role in functional outcome
one year after hip hemiarthroplasty?**
