

## Accepted Manuscript

Antibodies targeting BTLA or TIM-3 enhance HIV-1 specific T cell responses in combination with PD-1 blockade

Katharina Grabmeier-Pfistershammer, Carmen Stecher, Markus Zettl, Sandra Roskopf, Armin Rieger, Gerhard J. Zlabinger, Peter Steinberger

PII: S1521-6616(17)30506-5  
DOI: doi: [10.1016/j.clim.2017.09.002](https://doi.org/10.1016/j.clim.2017.09.002)  
Reference: YCLIM 7924

To appear in: *Clinical Immunology*

Received date: 6 July 2017  
Revised date: 1 August 2017  
Accepted date: 1 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
