Hypoxia Inducible Factor-1 $\alpha$  Inhibition Modulates Airway Hyperresponsiveness and Nitric Oxide Levels in a BALB/c Mouse Model of Asthma

Carola Dewitz, Elisa McEachern, Stephanie Shin, Kathryn Akong, Dale G. Nagle, David H. Broide, Praveen Akuthota, Laura E. Crotty Alexander

PII: S1521-6616(16)30537-X  
DOI: doi:[10.1016/j.clim.2017.01.002](https://doi.org/10.1016/j.clim.2017.01.002)  
Reference: YCLIM 7793

To appear in: *Clinical Immunology*

Received date: 25 October 2016  
Revised date: 5 January 2017  
Accepted date: 6 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
