This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

TITLE:

Body adiposity predictors of Vitamin D status in nondialyzed patients with chronic kidney disease:
A cross-sectional analysis in a tropical climate city.

Running head:

Body adiposity and vitamin D in chronic kidney disease

Full names and highest academic degrees of the authors:

1. Maria Inês Barreto Silva, MD in Science, PhD in Science
2. Vanessa Vicente de Souza Cavalieri, MD in Science
3. Carla Cavalheiro da Silva Lemos, MD in Science, PhD in Science
4. Márcia Regina Simas Torres Klein, MD in Science, PhD in Science
5. Rachel Bregman, MD in Medicine, PhD in Medicine

Affiliation of all authors:

Authors 1 and 4. Department of Applied Nutrition, Nutrition Institute, Rio de Janeiro State University, Rio de Janeiro, Brazil.

Author 2. Post Graduation Program in Medical Science, Rio de Janeiro State University, Rio de Janeiro, Brazil.

Authors 3 and 5. Nephrology Division, Rio de Janeiro State University, Rio de Janeiro, Brazil.

Role of each author in the study:

1 Maria Inês Barreto Silva: contributed to study conception and design, data collection, assembly, analysis and interpretation, manuscript drafting and approval of the final version of the manuscript.

2. Vanessa Vicente de Souza Cavalieri: contributed to data collection, assembly, analysis, and interpretation, manuscript drafting and approval of the final version of the manuscript.

3. Carla Cavalheiro da Silva Lemos: contributed to data collection, manuscript drafting and approval of the final version of the manuscript.

4. Márcia Regina Simas Torres Klein: contributed to study conception and design, data analysis and
